TASKS PLANNED FOR NEXT WEEK	EXPECTED
	COMPLETION
Supervisor meeting	02-09-2024
Start working on sprint 2	02-09-2024

Summary/weekly reflection for Week 5:

This week, I engaged in three key activities related to the project.

1. Supervisor and Team Meeting: I attended a meeting with the supervisor and the team, where we discussed progress, challenges, and future steps. It was a crucial opportunity to align our strategies and clarify any uncertainties within the team.
2. Individual Research: I conducted research on existing platforms similar to our project. This helped me generate new ideas and gain inspiration for potential features and improvements that could be implemented to enhance our platform's functionality and user experience.
3. Sprint 1 Completion: We successfully completed Sprint 1, incorporating feedback from both the supervisor and the client. This step helped in refining the project and ensuring that we are on the right track according to the client's needs and the project's objectives.
