TASKS PLANNED FOR NEXT WEEK	EXPECTED COMPLETION
Having the supervisor meeting and clear doubts on some part	19-08-2024
Finish sprint 1	25-08-2024

Summary/weekly reflection for Week 3:

This week, our team successfully held a meeting with the client, during which we gathered the necessary project specifications. Following this, we allocated tasks among team members for Sprint 1. We also finalized the UI/UX design and conducted individual research to gather ideas from similar applications and relevant projects. During this research phase, I explored new approaches to frontend and database management, which could enhance our project's efficiency and functionality.

Additionally, we discussed and outlined the key features that should be included in this project. I have identified a few questions related to Sprint 1 that I plan to address in our next supervisory meeting on August 19, 2024.
