## Project: Self and Peer Assessment

### 2022

This is an *individual* assessment item. The survey will take approximately 8 minutes to complete per team member. You will need to complete this survey multiple times:

1 for yourself and

1 for **each** member of your team (as signified on Canvas -- this might include team members who have not participated in the project who still need to be rated).

To complete this survey you will need your team member's ID numbers and names.

If you do the survey more than once for any team member, the last submitted survey will be taken as your response.

Your survey responses will only be viewed by Swinburne academic staff unless you give permission for them to be viewed by others. However, they may be used in conjunction with the responses of other team members to calculate final grades.

The main purpose of this peer review document is for all team members, including yourself, to reflect on interactions, but it may also be helpful in resolving potential disputes over the relative contributions of team members.

For each team member (including yourself), you should enter a score between 0 and 5, for categories A to J. No response to a question is calculated as 0. You should also provide detailed comments to explain your scores and/or describe any other concerns.

*This survey is based on questions contained in the STEM WIL Self and Peer Assessment Form and the Purdue University's CATME web app, as well as from Winger-aunty, S. 1990. University of Wisconsin-Stout, modified by Pheroza Daruwalla and Ian Knowd, 1994. The original Form was created by Karola von Baggo.*
