Summary/weekly reflection for Week 2:

Key Tasks Done/Things Attended:

- Participated in a team meeting to discuss project updates and coordinate tasks — completed.
- Continued work on Sprint 1, focusing on development and integration of new features.
- Engaged in individual research and self-study to enhance understanding and application of key concepts related to the project.

Key Things Learned About Engineering Technology Projects:

- The importance of clear communication and regular check-ins with team members to ensure alignment and progress.
- Insights into the specific challenges of integrating various components in the real estate platform, such as user interface adjustments and backend stability.

Literature Read and Key Things Learned:

- Explored several articles and tutorials on best practices for agile project management in technology projects, which helped refine our sprint execution strategy.
- Studied documentation on Vue.js and PHP integration techniques to improve the interactive elements of the real estate platform.

Issues/Problems:

- Encountered some challenges with code integration, causing delays in testing some of the new features.
- Required more time than anticipated to troubleshoot unexpected bugs in the sprint tasks.

Planned Tasks for Next Week:

- Attend a supervisor meeting on 17-03-2025 to discuss progress and receive feedback.
- Aim to finalize all tasks associated with Sprint 1 by 20-03-2025, ensuring readiness for the next phase of the project.
